How to Care for Your Pergo Floor

Your Pergo Floor CAN scratch if not cared for properly. There are a few simple protective measures that are very important to keep your floor looking new.

CARE AND MAINTENANCE

- Clean the floor using a vacuum with hard-floor attachments. (Do not use vacuum cleaners with a beater bar attachment.)
- Do not use steam cleaners or cleaning machines that buff the floor.
- Never wax, polish, sand, or lacquer the floor.
- Wipe soiled spots with a cloth dampened with clean water. Make sure the cloth is thoroughly wrung out. Never flood the floor with water or cleaner.

- Pergo strongly recommends the use of Pergo Spray Cleaner. However, a solution of 1 cup ammonia to 1 gallon of water or 1 cup vinegar to 1 gallon of water is effective.
- Do not use soap or detergent-based cleaners, wax-based products or any type of polish on Pergo floors. These cleaners leave a dull, filmy residue.
- Dry the floor thoroughly with a clean, soft cloth.
- Do not use abrasive cleaners or steel wool.
- Remove stubborn stains such as adhesive, paint, asphalt, oil, etc. with alcohol, acetone or nail polish remover.
